

PREVENTING CHAOS AT THE DOOR

The doorbell is a trigger for our dog to bark and jump on our guests.

We are working on training him and need your help.

When we open the door, if the dog runs to you and tries to jump on you:

- **DO NOT TOUCH HIM**
- **DO NOT TALK TO HIM**
- **DO NOT EVEN MAKE EYE CONTACT WITH HIM**
- **TOTALLY IGNORE HIM**

When he is sitting nicely and calmly we will give you the signal to greet him if you wish.

If he lunges and jumps, just ignore him again.

We really appreciate your help with this, as we cannot train him in isolation.
